[www.BeeSafeSecurity.org](http://www.BeeSafeSecurity.org)

## WHO'S BEE-SAFE

Founded in Ohio in 2011 by Jeremy Blanton, we're a small business specializing in professional security and investigative solutions.

Bee-Safe has Four Divisions:

Physical Security, Electronic Security, Investigations, and Training.

We have Armed Security Officers, Patrols, and Certified School Resource Officers.

We will design, implement, install, and service your security systems, alarms, cameras, access controls, etc...

Bee-Safe also operates an approved Ohio Peace Officer Training Commission Training Center. We train private individuals, groups and other security companies personnel.

To receive notifications of upcoming training(s) Follow us on Facebook at:

## SECURITY SYSTEMS

Security General Contractor, our Security Specialists will design a solution tailored to your expectations. We will work with other companies when needed to address all of your concerns, so that we give you the best solution to your problematic areas.

Bee-Safe smart IP cameras offer smart analytic, smart full-frame IR, with technology that allows the cameras to stay in full-color in most dark situations. Receive live active alerts. We offer stand-alone and cloud base solutions.

Bee-Safe investigates all sorts of criminal, civil cases, employee background checks, and process serving.

We investigate Cold Cases, Missing Person(s), Workers Compensation / Disability Fraud.

We have great working relationships with search/rescue, and cadaver canines teams throughout Ohio.

We have Surveillance and Counter Surveillance Teams.

# HOLIDAY SECURITY TIPS

## **1. Don't Advertise on Social Media**

Refrain from posting travel plans and pictures on social media sites, until after you return home.

## **2. Install an Alarm System**

Install a [Bee-Safe smart alarm](#) which allows you to monitor your home while your away. Arm and disarm your system from a smart device or computer.

## **3. Use Security Signs Around Your Home**

Make sure your Bee-Safe Security Yard Signs and Window decals are properly located to alert suspected thieves that it would be smart to avoid bothering with your property.

## **4. Use Automatic Timers**

Use light timers to set both interior and exterior lights to turn on and off at various times throughout the night. Use appliance outlet timers to turn a tv or radio on throughout the day.

## **5. LOCK All Doors & Windows**

Before you leave your home be sure to check that all windows and doors are locked and all window blinds/curtains are closed. Don't forget the second floor and basement windows!

## **6. Never Leave a Key Under a Rock or Doormat**

The first place a criminal will look for a spare key is under a door mat or objects near the door. Any spare keys for your home should be properly secured in a [mounted lock box](#) that is out of sight.

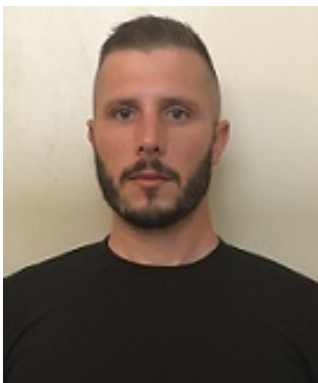

## **7. Install a Smart Camera**

Consider [Smart Cameras](#) by [Bee-Safe](#) and receive email & SMS alerts when someone enters onto your property.

## **8. Mail**

Ask your post office to hold your mail and packages, if you know in advance have all online orders delivered to the post office.

## EMPLOYEE SPOTLIGHT

### **Meet Jon Gronvall**

**Title:** Physical Security / Investigation Manager

**Years with Bee-Safe:** 2

**Experience:**

Has over 10 years of security and law enforcement experience. He has headed up fugitive recovery teams all across the State of Ohio. He has over 1,000 successful recoveries.

Since Jon has taken over the reigns for our

physical security and investigation divisions we have seen a flourishing rate of success.

Jon is a leader who leads by example and is always willing to help others progress to be successful. He trains those around him to be better than him, *signs of a true leader.*

Jon is a family man with two children. He is dedicated to success with both his personal and business family.
